DIGITAL IMAGE CAPTURE FOR FINE ART PRINTS

Studio Photography

Original Art Size Up To 20"x30"

&

High Resolution Scanning

Original Art Size Up To 12"x17"

\$35 with 8x10 proof

Above Prices Include image cropping, minor color correction, and CD containing 3 files for each image - original size tif, 8x10 300 dpi jpg and 8x10 low resolution jpg for internet.

Larger Images Require Additional Photos or Scans For Complete Image Capture
Additional Photos or Scans: \$10 each

DIGITAL IMAGE CAPTURE FOR WEB USE

Studio Photography

Any Size

\$20 with 8x10 proof

Some artists only need a good image of their art for show submissions and web use. There is no requirement for Color Correction or large digital files prepared for fine art prints. This includes CD with an 8x10 300 dpi jpg and an 8x10 low resolution jpg for web use

FULL COLOR CORRECTION - \$75

Although many artists are satisfied with the minor color correction performed at the time of the capture, some artists prefer a more exact color match. This process often requires a lot of time and a high use of paper and ink. Artist should know that some shades of color are impossible to match exactly. Includes two trials for approval and 8x10 Artist Proof on matte paper.
Additional trials with proof are \$25 each.

There is NO SETUP FEE for digital files professionally prepared and submitted by the artist. For best results, digital files should be submitted in one of the following formats: psd, tif, pdf, or jpg. Profile color space should be set to Adobe RGB 1998 at 240-360 dpi at final print size.
